Landscape and Urban Planning, 21 (1992) 343–345
Elsevier Science Publishers B.V., Amsterdam

Contents of *Landscape and Urban Planning*, Volume 21

VOL. 21 NOS. 1–2 **SEPTEMBER 1991**

Special Issue: Landscape Ecology

Guest Editors' Introduction
E.A. Cook (Tempe, AZ, USA) and J. Hirschman (Pomona, CA, USA) 1
Interactions of landscape ecology, planning and design
F.B. Golley (Athens, GA, USA) and J. Bellot (Zaragoza, Spain) 3
Landscape planning: functionalism as a motivating concept from landscape ecology and human ecology
D.L. Hall (Ann Arbor, MI, USA) 13
Scale economics: ecological theory and planning practice in urban landscapes
R. Westmacott (Athens, GA, USA) 21
Hierarchy and subsidy–stress as a theoretical basis for managing environmentally sensitive areas
M.D. Jennings (Philadelphia, PA, USA) and J.P. Reganold (Pullman, WA, USA) 31
The utility of semi-formal models in ecological planning
J.T. Lyle (Pomona, CA, USA) 47
Toward a landscape ecological aesthetic: methodologies for designers and planners
J.F. Thorne and C.-S. Huang (Philadelphia, PA, USA) 61
The utility of fractal geometry in landscape design
B.T. Milne (Albuquerque, NM, USA) 81
A hydrological approach to landscape planning: the framework concept elaborated from a hydrological perspective
M. van Buuren (Wageningen, Netherlands) 91
Habitat, visual and recreational values and the planning of extractive development and protected areas: a tale of three islands
G.B. Ingram (Vancouver, B.C., Canada) 109
Planning for an extensive open space system: linking landscape structure and function
J. Ahern (Amherst, MA, USA) 131

Announcement 147

VOL. 21 NO. 3 **NOVEMBER 1991**

Use of landscape classification as an essential prerequisite to landscape evaluation
E.J. Blankson (Kumasi, Ghana) and B.H. Green (Ashford, UK) 149
Community response to a municipal waste incinerator: NIMBY or neighbor?
O.J. Furuseth and J. O'Callaghan (Charlotte, NC, USA) 163
Winter foraging guild structure and habitat associations in suburban bird communities
R.M. DeGraaf (Amherst, MA, USA) 173
Bird population and habitat surveys in urban areas
R.M. DeGraaf (Amherst, MA, USA), A.D. Geis and P.A. Healy (Laurel, MD, USA) 181
Beach resorts: A model of development evolution
R.A. Smith (Wurtulla, Qld., Australia) 189
Planning and designing new urban settlement on estuaries: Bangladesh
R.L. Meier (Berkeley, CA, USA) and A.S.M.A. Quium (Dhaka, Bangladesh) 211

Book Reviews
Sandy-shore ecology 227
Agroforestry 228
Human resources management 229
Community ideology 230
Learning from Rotterdam 232
Damage-controlled logging 234

VOL. 21 NO. 4 MAY 1992

Special Issue: Data Visualization Techniques in Environmental Management

Data Visualization Techniques in Environmental Management: workshop participants and contributors iv

Data Visualization Techniques in Environmental Management: a workshop
B. Orland (Urbana, IL, USA) 237
Data Visualization Techniques in Environmental Management: a research, development and application plan 241
Introduction to the concept papers
B. Orland (Urbana, IL, USA) 245
A facet analysis of visualization for environmental management
R. Chenoweth (Madison, WI, USA) 247
Visualization in environmental management: beyond the buzz word
A. Turk (Parkville, Vic., Australia) 253
Evaluating regional changes on the basis of local expectations: a visualization dilemma
B. Orland (Urbana, IL, USA) 257
Data visualization for decision support in environmental management
T.C. Daniel (Tucson, AZ, USA) 261
Three questions on the use of photo-realistic simulations as real world surrogates
N.H. Perkins (Guelph, Ont., Canada) 265
Virtual reality systems and research on the perception, simulation and presentation of environmental change
D.G. Pitt and J.I. Nassauer (St. Paul, MN, USA) 269
Some words of caution
C. Steinitz (Cambridge, MA, USA) 273
The computerization of environmental design
J.D. Carpenter (Columbus, OH, USA) 275
Future for visualization through the integrated forest resource management system (INFORMS)
W.B. White (Fort Collins, CO, USA) 277
SYLVATICA: an integrated framework for forest landscape simulation
G.E. Host (Duluth, MN, USA), H.M. Rauscher (Grand Rapids, MN, USA) and D. Schmoldt (Blacksburg, VA, USA) 281
Scientific data visualization and biological diversity: new tools for spatializing multimedia observations of species and ecosystems
M.P. Hamilton and M. Flaxman (Idyllwild, CA, USA) 285
Visualization in the natural environment: a look forward
I. Bishop (Parkville, Vic., Australia) 289
Future directions and challenges for quantitative environmental visualization
S.M. Larson (Urbana, IL, USA) 297
Analysis of population dynamics with interactive multi-dimensional graphics
D.W. Onstad and E.A. Kornkven (Champaign, IL, USA) 301
Techniques for incorporating visualization in environmental assessment: an object-oriented perspective
D.K. Loh, D.R. Holtfrerich, Y.K. Choo (College Station, TX, USA) and J.M. Power (Chalk River, Ont., Canada) 305
Chaotic algorithm for surface estimation
E.A. Yfantis, G.M. Gallitano, and G.T. Flatman (Las Vegas, NV, USA) 309

The visualizing generalist
B. Carney (Vienna, VA, USA) 313
Scientific visualization for the study and use of forest stand simulators
H.E. Burkhart (Blacksburg, VA, USA) 317
Forest visual resources and pest management: potential applications of visualization technology
A.M. Lynch (Fort Collins, CO, USA) and M.J. Twery (Morgantown, WV, USA) 319
Scientific visualization efforts at the U.S. Environmental Protection Agency
A. Cullati, R. Idaszak, and T. Rhyne (Research Triangle Park, NC, USA) 323
A laboratory for the visualization of virtual environments
K. Pittman (Raleigh, NC, USA) 327
Data visualization in the Soil Conservation Service
G. Wells, T. Rudnick (Lincoln, NE, USA) and D. Miyoshi (Fort Collins, CO, USA) 333
Data visualization: attendees and their interests 337
